WALDEMAR ISN'T HANKERING AFTER THE THRONE

Of Bulgaria-He Will Ask His Papa death in the Chamber of Deputies and First-The Hudson Bay Railroad.

TIBNOVA, November 11. - Prince Waldemar has sent a telegram to the Sobranje in electing him Prince of Bulgaris. He states, however, that the decision as to his acceptance rests with his father, the King of Denmark, and adds that other duties may be solved. and adds that other duties may pre-vent his assuming the nuler-hip of Bulgaria. The Prioce's reply is con-sidered to presage his refural of the

Does Russia Want Waldsmar on the Bulgarian Throne?

PESTH, November 10 - After the election of Prince Waldemar to the election of Prince Waldemar to the Bulgarian throne, yesterday, the Aus-trian and German Ambassadors at St. Petersburg were instructed by their governments to inquire of Russia the name of the cand date she favored as Prince Alexander's successor. If Russia refuses to accept the election of Prince Wa'demar, or to cominate another candidate, it will be considered that she entertains designs against Bulgarian independence, and in this event England, Germany, Austria and Italy will arrive at an understanding similar to the one that existed among them at the period of the Berlin Con-

CONSTANTINOPLE, November 11 .impending negotiations between Sir William White, British Ambaseador to Turkey, and the Poste relative to the Egyptian question will, it is now stated, be completed forthwith according to the instructions given. Previous to the basis of the fresh understanding will be the joint report on the condi-tion of Egypt, to be made by Moukh-tar Pasha and Sir Henry Drummond Wolff, the special Turkish and English envoys respectively, who have been for some time engaged in the work of invest gating Ezyptian affairs. Their report deals with the workings of the present Anglo-Turkish Convention in Egypt, and make suggestions as to how the reforms in the military, civil and other departments of the Khedive's government, specified in the convention, can best be carried into execution.

RUSSIA.

Bussia's Affairs, St. Petersburg, November 11.-In semi official circles here Lord Salis-bury's speech at the Lord Mayor's banquet in London is construed as pacific. Baron Mohrenheim is about to return to Paris to resume his duties as Russian Ambas-ador to France. On his way to the French capital he will stop at Cannes in order to have a conference with Prince Wa'demar. Prince Nicholas, of Mingerella, who is favored by the Czar as a candidate for the Bulgarian throne, is a Russian subject and a member of the orthodox Greek Church. He is a son-in-law of Count Adelberg. He is said to be willing the accept the post of Bulgarian ruler.

The result of his observations is to show the pract'cability, so far as its con-struction is concerned, of the Hudson Bay railway. The character of the country, Dr. Bell says, is in every respect adapted to the construction of the line, and no engineering difficul-ties of any moment will be met with. He is confident of the success of the rallway scheme and says that Churchill harbor is open five months in the year and the straits would meet all requirements. Treaty Between Canada and the Sandwich Islands Considered.

Offawa, Ont., November 11 .- The

question of a treaty between Canada and the Sandwich Islands is under cons deration by the Dominion Government. A Commissioner has been appointed to proceed to the West Indies and report upon the best methods of developing trade relations.

"Le Canadien" Retracts.

Quebec, November 11.—There has been considerable comment upon the article in Le Canadien in reference to the banquet given to Justin McCarthy, in which it solemnly affirmed that at the banquet there were seditious and disloyal speeches were made, and that annexation was hinted at, together with a rupture of the links that binds Canada to the English crown. Le Lecture gave these remarks a flat denial, and as a result Le Canadien has retracted its first statement.

DANGEROUS DRUGS.

How to Con rol Effectually All fuch Horrible Habits,

Rochester (N. Y.) Post-Express: A gentleman who had spent the summer abroad, said to our reporter that the thing that impressed him most of all was the number of holidays one en-countered abroad and the little auxiety the people display in the conduct of business affairs. "Men boast here," he said, "that they work for years without a day off; in Europe that would be considered a crime."

Mr. H. H. Warner, who was present at the time, said: "This is the first summer in years that I have not spent

on the water. Been too busy."

"Thee, I suppose you have been advertising extensively."

"Not at all. We have always here-tolore closed our laboratory during July, August and September, but this armount we have kent it unoing day. summer we have kept it running day and night to supply the demand, which has been three times greater than ever b. fore in our history at this

"How do you account for this?" "The increase has come from the universal recognition of the excellence of our preparations. We have been nearly tea years before the public, and the sales are constantly increasing, while our newspaper advertising is constantly diminishing. Why, high sciencific and medical authorities now publicly concede that our Warner's safe cure is the only scientific specific for kidney and liver diseases, and for all the many diseases caused by them." "Have you evidence of this?"

"Abundance! Only a few weeks ago Dr. J. L. Stephens, of Lebanon, O., a specialist for the cure of nar-cotic habits etc., told me that a number of eminent scientific medical men had been experimenting for years, testing and analyzing all known remedies for the kidneys and liver, for, as you may be sware, the excessive use of all nar-cotics and stimulan's destroys those organs, and until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M.D., presi-dent of the State Board of Health of Iowa, and Alexander Neil, M.D., pro-fessor of surgery in the College of Physicians and Surgeons and president of the Academy of Medicine, st Columbus, who, after exhaustive in-quiry, reported that there was no ramedy known to schools or to scientific inquiry equal to Warner's safe

"Are many persons addicted to the

"Are many persons addicted to the use of deadly drogs?"

"There are forly millions of people in the world who use opinm alone, and there are many hundreds of thousands in this country who are victims of morphine, opium, quinine and cocaine. They think they have no such babit about them—so many people 12860. Office Andrews of the Saverin of what they call malaria and demand diseases, when in reality it is a demand in the system for these terrible drugs, a demand that is caused largely by physicians' prescriptions, which contain so many dangerous drugs and strong spirits, and one that must be answered or silenced in the kidneys and liver by what Dr. Stephens says is the only kidney and liver specific. He also says that moderate opium and other drug esters, if they sustain the kidney and liver vigor with that great remedy, can keep up these habits in 14899....

"Well, dose not this discovery give you a new revelation of the power of

safecure? "No, sir; for years I have tried to convince the public that nearly all the diseases of the human system originate in some disorder of the kidneys or liver. and hence I have logically declared that if our spe ific were used, over 90 per cant, of these allments would disappear. The liver and kidneys seem to absorb these poisons from the blood and become deprayed and dis

When these eminent anthorities thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightful effects of all deadly d ugs and ex-cessive use of stimu anis it is an admission of its power as great as any one could desire; for if through its in-fluence alone the opium, morphine, quinine cocaine and liquor habits can be overcome, what higher testimonial of its specific power could be asked

"You really believe then, Mr. Warner, that the majority of diseases come from kidney and liver complaints?" "I do! When you see a person moping and groveling about, half dead and half alive, year after year, you may surely put him down as having

some kidney and liver trouble."
"The other day I was ta king with Dr. Fowler, the eminent oculist of this city, who said that half the patients who came to him for eye treatment were affected by advanced kidney disease. Now many people wonder why in middle lite their eyesight becomes so poor. A thorough course of treatment with Warner's Saie Cure is what they need more than a pair of is what they need more than a pair of sye glasses. The kidney poison in the blood always attacks the weakest part of the body; with some it affects the eyes; with others the head; with others the stomach or the lungs, or rheumatic disorder follows and neuralgia teams them to p'eces, or they less the powers of taste, smell or become impotent in other functions of the body. What man would not give his all to have the vigor of youth at command?"

"The intelligent phylician knows that these complaints are and they are symptoms not of disease ploms; they are not the disorder, of the head, the eye or stomsch, or of virility, necessarily, but of the kidney poison in the blood and they may pre-

vail and no pain occur in the kid-It is not strange that the enthusiasm which Mr. Warner displays in his appreciation of his own remedy, which restored him to health when the doctors said he could not live six months, should become infectious and that the entire world should pay tribute to its power. For as Mr. Warner says, the sales are constantly Corenhagen, November 11.—The Danish papers generally advise Prince Waldemar to refuse the Bulgarian throne. It is announced that Prince tions.
